**Rev Dr Ralph Waller**

*will speak on*

## **“Theological Problems of the Last 200 Years”**

The great watershed between the medieval and the modern world was the Enlightenment with its emphasis on thinking for yourself. The repercussions of this phenomenon increased through the 19<sup>th</sup> and early 20<sup>th</sup> centuries. This lecture will be looking at some of the theological trends which followed the Enlightenment and the problems which they raised for Christianity.
